GETTING STARTED

CONNECTING THE NINTENDO® 64 CONTROLLER

To play Spider-Man®, connect a Controller to controller socket one located on the front panel of the Control Deck.

If you change the connection during the game, you will need to turn the power OFF to make the connection active.

RUMBLE PAK®/CONTROLLER PAK®
The game, Spider-Man, is compatible with the Rumble Pak and Controller Pak accessories. Before using them, read the Rumble Pak and Controller Pak instruction booklets carefully.

Any time you start a game, you will be prompted to insert your Rumble Pak or Controller Pak at that time. If you are not using a Rumble Pak or Controller Pak, you will see a message reminding you that the Rumble Pak or Save/Load features will not be available. Remember, it is important to only switch your Rumble Pak and Controller Pak when prompted to do so.

Note: Spider-Man may not be compatible with all 3rd party accessories.

CONTROL STICK FUNCTION

The Nintendo 64 Control Stick uses an analog system to read the angles and directions of its movement. This allows subtle control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press START while holding the L and R Buttons.

The Control Stick is a precision instrument—make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact a Nintendo Authorized Repair Center.

CONTROLLER PAK MENU

Press and hold Start upon powering up or reset to access the Controller Pak Menu. This will allow you to view and delete game notes from a Nintendo 64 Controller Pak. Follow on-screen instructions to Exit or Delete Notes.

Note: Saved games require one note and four pages.

DIFFICULTY LEVELS
There are four different levels of gameplay to be found in Spider-Man. The three traditional skill levels are:

Easy: Novice game players should choose this difficulty level. More clues are present to solve puzzles. Enemies take less damage to subdue, and Spider-Man can absorb much more punishment than on Normal and Hard difficulty levels.

Normal: A step above Easy, this difficulty level will present the average game player with more of a challenge.

Hard: For extreme Spidey-players only! Even the seasoned Spider-Man veteran will find this mode more than challenging!

A special difficulty mode has been implemented to please young gamers.

Kid Mode: For children who want to explore the various levels of Spider-Man, Kid Mode allows them to do so with the controller configured for young hands and the gameplay customized to allow easy passage through each level.

UNDERSTANDING THE IN-GAME DISPLAY

The Heads-Up Display, or HUD, for Spider-Man is fairly simple. Spider-Man's health, and that of his allies and enemies, is represented by a horizontal bar that runs across the top of the screen. For webbing, the vertical bar registers how much web fluid is left in the web cartridge that Spider-Man is currently using. The number just to the right of this bar tells you the total number of web cartridges Spider-Man is carrying.

In the lower right hand corner is the Spider-Compass. Occasionally the Spider-Compass will appear in order to show you the direction you should be heading through the city, with up corresponding to "Forward" and down corresponding to "Back."
POWER-UPS AND ICONS

Within the game there will be a number of power-ups to aid Spider-Man in his mission. Each power-up has a different function, listed below. To obtain a power-up, run, crawl, or use your zip-line to make contact with it. If Spider-Man has reached his holding capacity for a certain item, the power-up will become transparent when you make contact with it. Here are some of the power-ups to be found in the game:

**Web-Cartridges (Blue):** Each web attack Spider-Man does (see Spider-Man's Moves section) will remove a portion of your overall webbing. Before you run out of webbing you'll need to pick up a new web cartridge. Web cartridges allow Spider-Man to execute his web attacks. Under normal conditions Spider-Man can carry up to ten web cartridges at any time.

**Health (Red and White):** Health cartridges serve to restore a portion of Spider-Man's health throughout the game. Be careful however, you'll never know just how much a particular health cartridge will restore you. Play wisely to conserve your health.

**Armor (Gold):** This rare power-up will change the costume and properties of Spider-Man for a brief time in the game. When you collect this power-up, Spider-Man's suit will change to its armored configuration. The Spidey-Armor has its own health bar, so it will take damage and leave Spider-Man unharmed. However, normal health cartridges will not work on Spidey-Armor, so be careful. Once its health runs out, Spidey-Armor disappears and Spider-Man returns to normal. Also, Spidey-Armor increases the amount of damage Spider-Man does to his opponents while reducing the amount of damage an enemy can do to him.

**Helper Icons:** These icons will appear as an aid for less experienced players. The icons will inform you of anything from how to use your web to hints on how to solve some of the puzzles found in the game. To activate the helper icon, simply walk through it.

Note: Some helper icons will seem to disappear without being activated. This only means that you have already performed the task it was intended to teach you.

TRAINING

Need to fine-tune your superhero skills? The training mode offers the opportunity to test out your crime-fighting skills in a number of different training environments.

**TIME ATTACK**

Instant action combat for either 60 or 120 seconds. Hone your fighting skills by eliminating as many villains as you can within the selected amount of time. You will also select the villain you will fight against. Use the Control Pad up/down to select both the time limit and type of enemy. Press the A Button to confirm your selection.

**SURVIVAL MODE**

Survival mode is the ultimate test. No time limit, just an endless amount of foes to battle against. Once Spider-Man's health bar runs out, the fight is finished!

In Survival Mode there is also the opportunity to select the type of villain you will fight against. Use the Control Pad up/down to highlight both the time limit and type of enemy. Press the A Button to confirm your selection.

**SPEED TRAINING**

Web-swinging is as important to Spider-Man as walking. Speed Training mode allows you to practice your web swinging through different parts of the city. The better you become at web swinging, the lower your time will be.

**ITEM COLLECTION**

Test maneuverability, reflexes, and timing in either Item Hunt or Zip-Line Training modes.

**Item Hunt:** Practice your maneuverability in the labyrinthine Item Hunt area. Run, jump, crawl, and web-swing in order to collect all of the gold Spider-Medallions as quickly as possible in order to get the best time.
Zip-Line Training: For the more daring game player. Test out your timing and accuracy in this mode. Descend from the ceiling by pressing the Jump button to pick up as many Spider-Medallions as possible. Then use Zip-Line webbing by pressing B Button to return without touching the deadly electrified floor. More medallions mean a higher score.

RECORDS

Only those who really know what it means to be a superhero make it into the Records. Use the Control Pad up/down to highlight a specific set of records. Press the A Button to confirm the selection. To exit, press the B Button.

SPECIAL

Costumes

Spider-Man hasn't always worn the familiar red and blue suit that most people know. Over the years of being a superhero there have been times when a different suit was necessary to overcome certain challenges. In the game, some suits are better adapted than others to the many challenges that Spider-Man must face. Locate these costumes and use their special abilities to more easily overcome Spider-Man's adversaries.

VIEW CREDITS

See a list of all the people responsible for bringing Spider-Man to life. Select View Credits and press the A Button to confirm. The B Button can be pressed at any time to exit.

CHEATS

Input any game cheats that have been discovered here. Enter the cheat code using the Control Pad to select letters. Select Space and press the A Button if the cheat code contains a blank space in it. Select Backspace and then press the A Button to correct errors. When you're finished inputting the code, use the Control Pad up/down to select Finish. Press the A Button to confirm the code. The B Button can be pressed at any time to exit.

LEVEL SELECT

Select which unlocked level to play in the game. Scroll through and highlight available levels by using the Control Pad up/down. Confirm your choice by pressing the A button. The B button can be pressed at any time to exit.

GALLERY

CHARACTER VIEWER

The character viewer will let you become more acquainted with the people in Spider-Man's world. Included with each character is a short biography and narrative, as well as when he, she, or it first appeared in comic books. Any listing that contains a question mark (?) is unavailable until unlocked from within the game.

As you progress through the game, more and more characters will become available for viewing. To operate the Character Viewer, use the Control Pad up/down to scroll through your available choices, then press the A Button to select. Using the Control Pad left/right will allow you to rotate the image of your selected character 360 degrees. Pressing the L and Z Buttons respectively will allow you to zoom in or out on the character you have selected.

Press the B Button to exit the Character Viewer.

SLIDE SHOW

This feature will allow you to view any of the slides that you have unlocked during the course of gameplay. As you progress through the game, more slides will become available for viewing. Use the Control Pad up/down to scroll through your available choices, then press the A Button to select. Any listing that contains a question mark (?) is unavailable until unlocked from within the Game.

Press the B Button to exit the Slide Show.
COMIC COLLECTION
Hidden throughout the game are a number of icons that resemble comic books. These icons can be in plain view, or they may require a bit of exploration to uncover. Once collected, the icon will unlock a real Spider-Man comic cover. These comics detail historic events in Spider-History, including a brief synopsis pointing out the highlights of that particular issue. Any listing that contains a question mark (?) is unavailable until unlocked from within the game.

Press the B Button to exit the Comic Collection.

GAME COVERS
As the story unfolds, each chapter will be prefaced with its own comic book cover. Use the Control Pad up/down/left/right to highlight a cover once it's unlocked. View the highlighted cover by pressing the A Button. To go back, press the B Button. Any listing that contains a question mark (?) is unavailable until unlocked from within the game.

Press the B Button to exit Game Covers.

THE STORY THUS FAR...
"Last time I checked, I was Spider-Man.
So there I was, attending a lecture at the Science Expo given by the now-reformed Dr. Otto Octavius (better known as Doctor Octopus). Just as Octavius finished lecturing on his latest technological innovation, the entire auditorium was thrown into chaos.

Somebody dressed to look like Spider-Man took out the security guards and stole Octavius' new piece of technology. As if that wasn't bad enough, I bumped into Eddie Brock during all the commotion. Since Brock is the human half of the symbiotic pair known as Venom, I'm thinking his presence at the Science Expo can only mean more trouble.

Isn't that just my luck? Octavius' technology has been stolen, and the police and everyone else in New York City think it was me that took it. But there has to be more to this than meets the eye. Why would someone want to steal Octavius' technology and pin the theft on Spider-Man?

Well, I know one thing for sure: New York City is only big enough for one Spider-Man.

And that's me."

POWERS

- Super-Human Strength (Class 10 = 10 Tons)
- Super-Human Reflexes (Similar to a Spider)
- Super-Human Agility (Similar to a Spider)
- "Spider-Sense" that warns him of pending danger and gives him
  ability to detect signals from his Spider-Tracers
- Ability to adhere to walls and most other surfaces with his
  extremities

Other Abilities: Peter Parker is a gifted and inventive person who,
even if he wasn't bitten by that radioactive spider years ago, would
have made a great contribution to society as a scientist.

GAMEPLAY TIPS

- If you press jump while in mid swing, then re-engage your web
  swing, you can alter your course. This is called "Breaking, or Cutting
  Webbing."
- Use your Spider-Sense to fight multiple foes. The red arrows will
  point to where an enemy is located. Also, your Spider-Sense will
  point out the closest bad guys first.
- Sometimes Zip-Line webbing can be used to save yourself from
  falling. Make sure there is something above you to cling to first!
- Vary your attacks. Different enemies respond differently to attacks.
  Some have to be fought at a distance; others are not affected by
  impact webbing. Learn how to fight each enemy in a way that
  conserves both health and webbing.
- Use Web-Spikes to increase your punching power considerably.
- When facing multiple opponents, the
  Web-Dome is useful for both attack
  and defense.
- Don't forget that you're Spider-Man! Use ceilings and overhangs to
  approach the bad guys with stealth.
- Sometimes it's better to run than fight. Even super heroes know
  when a fight can't be won. Use discretion when confronted with
  some enemies.
- Use the environment to your advantage. Grab your
  enemies and send them flying. This is especially useful in the furnace
  room.
- Spidey may be a superhero, but he doesn't like water. Avoid
  swimming at all costs!
- Use combinations of punch, kick, and webbing to get more effective
  attacks.
- Remember, many objects in your environment can be picked up and
  thrown by Spider-Man.
- Remember to explore your environment; you never know what you
  might find behind a door or under some furniture.
